thermodynamic property tables - illinois institute of ... - thermodynamic property tables. •e.g. if you have pressure and temperature for steam, you can find it's specific volume, enthalpy, internal energy, and entropy. •there are separate property tables for saturated mixtures, subcooled liquids, superheated vapors, and ideal gases. •thermodynamic property tables can be found in the **property tables and charts (english units)** - table a-1e molar mass, gas constant, and critical-point properties table a-2e ideal-gas specific heats of various common gases table a-3e properties of common liquids, solids, and foods table a-4e saturated water—temperature table table a-5e saturated water—pressure table table a-6e superheated water table a-7e compressed liquid water table a-8e saturated ice–water vapor **appendix thermodynamic tables — metric units** - appendix b thermodynamic tables — metric units per earlier agreement, please include from cengel, y and boles, m (2002) thermodynamics: an engineering approach. 4th ed. **appendix a thermodynamic property tables - iiar** - appendix a — thermodynamic property tables a-2 ammonia data book may 2008 when the haar and gallagher data (1978) was released, ashrae chose not to simply update the old tables. instead, they changed the datum conditions at which enthalpy and entropy were zero. as a result, many engineers chose to continue to use the old data **thermodynamic properties (si units) - chemours** - thermodynamic properties (si units) technical information tables of the thermodynamic properties of freon™ 22 (r-22) have been developed and are presented here. this information is based on values calculated using the nist refprop database (mclinden, m.o., klein, s.a., lemmon, e.w., and peskin, a.p., nist standard reference database **spreadsheet calculations of thermodynamic properties** - computer calculation of thermodynamic properties is an efficient replacement for property tables, which are still used in thermodynamics instruction. computerized property calculations are used routinely in engineering applications. they are available from a variety of sources, such as the national institute of standards and technology.1 **standard thermodynamic properties of chemical substances** - standard thermodynamic properties of chemical substances this table gives the standard state chemical thermodynamic properties of about 2400 individual substances in the crystalline, liquid, and gaseous **table 3. compressed water and superheated steam - nist** - table 3. compressed water and superheated steam 0.01 mpa (t s = 45.806 ...
