
Triticale A Promising Addition To The Worlds Cereal Grain Report

evaluation of grain yield stability of superior triticale ... - study of stability of superior triticale lines, this investigation was conducted at two stations in two growing seasons. this study was assigned in randomized complete block design with 3 replications. each experiment consists of 18 promising lines and cultivars of triticale in addition of two checks of triticale: et-79-17 and sanabad. **zinc application method impacts winter triticale in ...** - winter triticale is a very promising cereal crop for russia. triticale grain has higher level of lysine than winter wheat. lysine is an essential amino acid in human nutrition and plant proteins usually have insufficient levels of lysine. baking properties of triticale are not as good as soft wheat, but **evaluation of wheat promising lines under on-farm conditions** - testing triticale promising line recommended et-83-18 new line can be replaced by juanillo-92 old cultivar under birjand and similar areas conditions of iran. the objective of this research was evaluation wheat grain yield promising lines of c-89-6, c-89-7 and c-89-15 and comparison of them with mihan as **triticale : a new grain crop? - researchlibraryric.wa ...** - promising lines are harvested to provide bulk seed for yield testing at three sites in the cereal growing areas. as seed is multiplied, more extensive testing is carried out. the most promising lines emerging from these tests are included in a large number of variety trials planted each year throughout the agricultural areas of the state. **the application of triticale malt as the substitute for ...** - the aim of this work was the investigation of wort production for beer by the application of triticale malt as a partial substitute for barley malt in grist. for wort production three series of experiments were carried out in which malts produced from three different triticale varieties were used as the substitute for barley malt in grist. **analysis of yield and some important agronomic traits of ...** - yield and some important agronomic traits in seven promising lines of triticale using combined analysis of variance. 2terials and methods 2.1. sample preparation in this experiment, seven lines from preliminary analysis of yield and some important agronomic traits of iranian triticale genotypes in farmer conditions **the genetic diversity of triticale genotypes involved in ...** - the genetic diversity of triticale genotypes involved in polish breeding programs agnieszka niedziela, renata orłowska, joanna machczyńska and piotr t. bednarek* abstract genetic diversity analysis of triticale populations is useful for breeding programs, as it helps to select appropriate
